

ELECTROMECHANICAL LOCKING DEVICE

easyLOCK

Art. No. 108360.0

Easy to install and universally applicable through small dimensions. Our handy and reliable locking device EasyLock.

- » VdS-Classification C (G 107102)
- » Qualified for intrusion detection systems according to DIN EN 50131-1
- » 36 months warranty

The motoric locking together with the electronic evaluation (activation and response) is united in only one small device. The completely open concept allows easy integration into any existing intrusion detection system, access control system or facility management system. Integrated monitoring contacts provide continually information about the switching state of the device.

Besides high system integration special emphasis was put on easy emergency opening and easy locking bolt exchangeability.
