

SECURITY SEAL

SECSEAL

Art. No. 2081xx.0

THE SECSEAL SECURITY SEAL IS USED AS A KEY RING SEAL IN THE FIELD OF KEY MANAGEMENT SYSTEMS OR AS A SEAL IN THE AREAS OF WAREHOUSE LOGISTICS, WAREHOUSE CONTROL AND MATERIAL FLOW.

The security seal is provided with a unique identification number. The locking mechanism itself is located inside the plastic housing, so that no access is possible.

Once the seal is closed, it can only be opened by destroying it with tools. The security seal is closed by simply pressing it together. Additional tools are not required.

Product details:

- » Ring diameter: 30 mm / 45 mm
- » Ring strength: 3,5 mm
- » Material ring and spring: 1.4301 (Edelstahl)
- » Material plastic housing: PA 6.6
